Mark D. Mayberry, CPA.CITP, CISA

Partner

National Director of Assurance Automation

Experience

Mark has over 27 years of experience providing accounting, auditing and information systems assurance services to privately held businesses, multi-national companies and large, public companies. Mark's information systems assurance experience includes providing reviews of sophisticated computer environments, eCommerce systems, and network systems. He has also provided in-depth reviews of automated accounting systems including packaged applications and in-house developed applications and has performed extensive data extraction from information systems for detailed and summarized statistical data analyses.

In his role as the National Director of Assurance Automation, Mark is responsible for the research, development and implementation of automation strategies including audit software, document management and workflow. Mark has conducted educational programs domestically and internationally focusing on the efficient and effective application of the Firm's audit methodology and electronic tools and he is the Firm's Sampling Coordinator. He serves on International BDO teams developing audit software, methodology, and automation techniques.

Mark currently serves as a representative on the Certified Information Technology Professional (CITP) Credential Committee, the Top Technology Initiatives Task Force, the Information Technology Competency Model Task Force, the Sampling Guide Task Force and the Editorial Advisory Board of InfoTech Update and has previously served on the Information Technology Research Sub-Committee, the CITP Exam Writing Task Force, the Technology Conference Planning Committee, and the Technology Conference Strategic Advisory Board of the American Institute of Certified Public Accountants (AICPA). He has authored several articles on technology trends.
